

# 112-X-N

☐ Charles A. Lindbergh became the first person to fly across the Atlantic when he flew from New York to Paris on May 20, 1927.

☐ The Ryan Aircraft Company built the airplane that Lindbergh named the "Spirit of St. Louis."

This and other flying model aircraft can be found at:

The Civil Air Patrol Aerospace Education Program is dedicated to bringing the joy and wonder of aviation to students of all ages.

Teachers -- Download aerospace learning activities and lesson plans for free from the Civil Air Patrol - New Mexico Wing web-site.

<http://nmwgc.cap.gov/> (Click on "Aerospace Education" then click on "Cardstock Model Airplanes & Rockets.")

Cadets - cut out this card and give it to your science teacher. He/She might like to include aviation topics as part of the class.
